

PESONA IMS

Inventory Management Software

Get in control of your inventory with PESONA IMS - the complete inventory tracking system. Engineered to improve efficiency and profitability, the system allows you to accurately track inventory, without the complexity or expense of an enterprise solution.

Benefits:

- Improve business profitability and purchasing efficiency
- Maintain accurate inventory counts for fewer inventory write-offs
- Ensure that the right items are in stock to meet customer demand
- Avoid cumbersome manual processes and simplify audit process
- Maintain comprehensive visibility of inventory details

***PESONA IMS is a bespoke system. Features may vary.*

Track

inventory by site, location, serial number, lot or date

Manage

inventory at multiple sites and locations or remotely
